# HRTM meets unique business requirements with customization, realizing the true potential of your UKG Workforce Central® investment.

## Level UP With The Workforce Central® Experts

### OPTIMIZATION

Since your initial implementation, the configuration of your WFC system may not have changed, but over time your requirements may have. Let our experts share their ideas on how to improve the use of your system based on your present day needs.

### STAFF AUGMENTATION

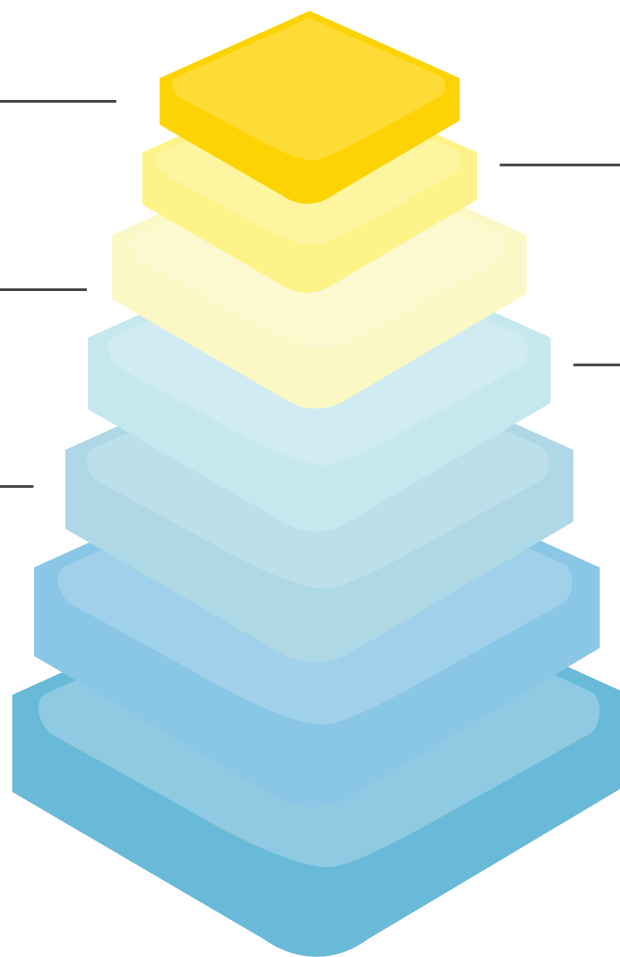

Unexpected staffing issues can put your organization at risk. Leverage HRTM's experience and network of qualified candidates fill key HRIS Analyst, Payroll and Human Resources roles on a contract basis.

### INTEGRATION

Automate the exchange of data between WFC and your existing third-party systems simplifying the way you share personnel, scheduling, payroll, and attendance information. HRTM can handle the most complex requirements to export and manipulate your sensitive data both reliably and safely.

### CONFIGURATION

Whether you are implementing a major change or a minor system adjustment, HRTM's expert WFC team can respond quickly to get it done.

### UPGRADES

Take advantage of the latest features from UKG by staying current with releases. We can assist with major upgrades or a simple install of service packs.

### TRAINING

Retention of staff with the know-how to support your system can be a problem in today's environment of staff shortages and a competitive job market. We can deliver focused driven training to bolster your team's system knowledge or train new resources who are new to UKG support role.

### CUSTOM REPORTING

Having accurate data to make key decisions is critical. HRTM can create custom reports to include custom configuration for your needs and beyond.

**Optimize system information for increased efficiency on reporting, time sheets, payroll, hiring and training.**
